## THE PRACTICAL NURSERYMAN.

PUBLICATION OFFICE:

HUNTSVILLE,

ALABAMA.

W. F. HEIKES, Editor and Manager.

Issued Monthly. Sent only to those in the trade. Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be handed in one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

### TO ADVERTISERS.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted. We guarantee a regular monthly circulation of 4,000.

### The Am. Association of Nurserymen

President, J. H. Hale, South Glastonbury, Conn.; First Vice President, N. H. Albaugh, Tadmor, O.; Secretary, Geo. C. Seager, Rochester, N. Y.; Treasurer, N. A. Whitney, Franklin Grove, Ill. Executive Committee: Irving Rouse, Rochester, N. Y., W. J. Peters, Troy, O., D. S. Lake, Shenandoah, Iowa.

Place for next meeting, Indianapolis, Ind., second Wednesday in June, 1895.

### Society of American Florists.

J. T. Anthony, Chicago, President; Robert Kirt, Philadelphia, Vice-President; Wm. J. Stewart, 67 Bromfield St., Boston, Mass., Secretary; M. A. Hunt, Terre Haute, Ind., Treasurer. Place of tenth annual meeting: Atlantic N. J., August, 1894.

### Am. Seed Trade Association.

D. I. Bushnell, St. Louis, President; S. E. Briggs, Toronto, 1st Vice-president; A. L. Don, 114 Chambers street, New York, Secretary and Treasurer.

### American Pomological Society.

Hon. P. J. Berckmans, Augusta, Ga., President; Chas. L. Watrous, Des Moines, Iowa, First Vice-President; Geo. C. Brackett, Lawrence, Kansas, Secretary; Benj. J. Smith, Cambridge, Mass., Treasurer. Place of next meeting: San Francisco, Cal.

We purpose to mail this paper to every nurseryman, florist and seedsman in the United States, and to leading firms in the same vocations in foreign countries. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments

## IMPROVED RUSSIAN MULBERRIES

### An Open Letter.

LAWRENCE, KAN., Aug. 23, 1894.

MR. W. F. HEIKES, HUNTSVILLE, ALA.

DEAR SIR:—I notice your inquiry in the PRACTICAL NURSERYMAN for an improved variety of the Russian Mulberry. I have one black fruited variety which bears berries of the largest size of that class, but has another feature—being an everbearing sort. The tree ripens its first fruit soon after the first ripe strawberries in June. Then they are so full that the branches bend with the weight of the berries, and continue this year until now, as the few sent by today's mail will bear evidence. Of course they are not as large, nor are there many now left, but when in prime five berries will measure  $1\frac{1}{2}$  inches across when laid side by side, and each berry one inch long or better. It is more constant bearing than Downing and far more prolific. I grafted a few trees last year and am waiting for the result.

Yours,

A. H. GRIESA.

Mr. Willard writes: "The orders that we have had to come in for buds and trees of the Willard Plum this year, have exceeded all anticipation."

We were favored with a basket of Abundance Plums from Mr. Henry Lutz, Youngstown, N. Y., shipped August 13th. They were the handsomest we have seen. Some of the largest specimens measured  $6\frac{1}{4}$  to  $6\frac{1}{2}$  inches in circumference. They were fully ripe and excellent in flavor.

There is a good demand for Wild Goose plum trees in New Jersey, Delaware and Maryland. It has been one of the most profitable market fruits there this season.

Mr. C. H. Webster, Centralia, Ill., writes: "The Robinson Plum bore a heavy crop of nice large plums this year; the Miner a light crop. No other sorts produced anything. All seemed to have been killed with the late Spring frost."

**Abundance and Sweet Botan.**

There is some confusion concerning Abundance and Sweet Botan. The Rural New Yorker and some others give Sweet Botan as a synonym of Abundance. This is an error. The variety so generally disseminated under the simple name of Botan and called by Mr. Berckmans Yellow Fleshed Botan, is identical with Abundance. To prove this beyond a doubt, we procured cions of Mr. Lovett, who first used the name Abundance, from his original stock, and we find the trees propagated from these cions identical with Yellow Fleshed Botan. The foliage and growth of the trees of Sweet Botan is so distinct from Abundance that there is not the slightest difficulty in distinguishing the one from the other. The Sweet Botan is now named Berckmans by Prof. L. H. Bailey, and we think it should be so catalogued to avoid further confusion.

**The Abundance Plum.**

There is such a multitude of "superior" novelties appearing every year which are really inferior, that when a really and truly superior novelty is found, The R. N.-Y. delights in giving it all possible publicity that its readers may be among the first to be benefited by the new introduction. That the Abundance proves to be about all that is claimed for it, seems now a settled fact. It is to us a blessing and a revelation; a blessing that we may now enjoy plums of our own raising, and a revelation in that we have never before been able to raise plums because of the curculio. Our friends should bear in mind that our tree was not planted until the spring of 1890, and it has borne three crops. Last season, the tree was so loaded that three props were used and the tree anchored so as to resist heavy winds. It was estimated that this young tree bore nearly three bushels, and the yield this season will probably be as much. Last year the plums began to color August 5. None had fallen or rotted. This year they began to color August 1. Many rotten ones had fallen. Last year none was fully ripe August 12, though all were ripening. The color was then a light green and crimson. On August 18, all were picked, though not fully ripe. The bees attacked them in such numbers that all would have been destroyed if longer left upon the

tree. As stated last year, we have grown about 25 varieties of plums—many of them said to be curculio-proof—, but the Abundance is the only variety that could hold its fruit to maturity. \* \* \* \* \*

A resume of what we have already published as to the Abundance elsewhere, is as follows:

W. W. Farnsworth, of Lucas county, O., fears that it blooms too early.

Prof. J. L. Budd, Story county, Ia., says that it is not hardy unless top-worked on native stock. Then it bears well and is not as much injured by the curculio as most other foreign plums. It is not, he says, equal in size or quality to some Russian plums which are much hardier in the tree.

W. F. Bird, of Washtenaw county, Mich., reports the trees remarkably hardy and healthy.

S. D. Willard, of Ontario county, N. Y., says that he is greatly delighted with its flavor and size as well as its market qualities. The masses of the people will be much pleased with it for home use. It sells fully as well as other plums in the market, if not better. It is a heavy bearer, and, on the whole, a profitable and desirable sort.

Our friend, Isaac Hicks, of Queens county, Long Island, N. Y., says that it is excellent in quality and a great bearer. Burbank is of better flavor.

H. L. Fairchild, of Fairchild county, Conn., says that it ripens when peaches are most abundant, which will probably hurt its market. Its quality and beautiful color make it very nearly the best for home use and market. It is practically curculio-proof.—Rural New Yorker, August 25, 1894.

"I am now ready to say, don't let any one tempt you into planting any of the Russian apricots. Those who have trees already planted would do better to cut them down, or in August or September, bud them over to some of the most reliable European varieties. The Harris apricot, a native seedling of central New York, is being quite largely grown there for commercial purposes and is a marked success, fully as large as the best grown in California, but not quite so clear in color, but so much better in quality as to make and hold a place in the market against the very best from California. If New England people want to grow apricots for home use or market, it would appear that the Harris variety was the one best suited to the situation here."—J. H. Hale in Courant.

## THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

**THE HUNTSVILLE WHOLESALE NURSERIES.**

We will begin digging Northern orders for early shipment on the 18th of September. Northern customers desiring early shipment should send in their orders promptly.

Notice the price made on Standard Pears,  $\frac{3}{4}$  to 1 inch and 11-16 to  $\frac{3}{4}$  inch, this month. We have a surplus of Bartlett's, and will make special prices on them in car lots.

We are the largest propagators of Japanese Plums, and have on hand the most complete assortment to be found in any nursery. More, that our varieties are correctly named and may be accepted as the standard in nomenclature.

There are some who think \$25.00 per thousand for Willard buds an extravagant price. We paid \$25.00 for our start in Willards and found it a good investment.

We have a large stock of Prunus Pissardi from Marianna stocks; fine low heads, two years old, very handsome. Special prices will be made on these in full case lots.

Our surplus of Satsuma Plums on plum is very large in 1 year 3 to 4 feet, and we will make specially low prices on them in lots of 300 or over.

Apple seedlings, Nebraska and Iowa grown, at low prices made known on application.

It is not safe to buy of any one simply because prices are low. It is more important to know the trees will be well graded and handled. The loss often occasioned by trees arriving in bad order or not up to grade, at packing time, is greater than the price paid for them.

We have a very large stock of one year Mulberries for delivery this Fall. They are planted a good distance apart, and are stocky and handsome for their age. Prices low. See another page.

We have a large stock of Orange and Meech's Prolific Quinces one year, from one foot high and upwards. Good plants true to name are scarce. Our trees are grown from grafts, made of cions taken from bearing orchards, and we know them to be pure.

**THE HUNTSVILLE WHOLESALE NURSERIES.****Distributing Points.**

We are making St. Louis, Mo., Cincinnati, Ohio, Rochester, N. Y., Philadelphia, Pa., and Fort Worth, Texas, distributing points; and will deliver free of freight charges to transfer companies, at either of these places, all orders in car lots, or in less than car lots, to be shipped from Huntsville on the dates named below:

For St. Louis—Early shipments from September 20th to October 10th; late shipments from November 1st to November 10th.

For Cincinnati, Rochester, Philadelphia and Fort Worth—November 1st.

The orders will be packed in Huntsville, and those for less than car lots will be combined to make up car lots and shipped to these points and distributed promptly to the various railroads centering there. This plan insures quick time and low freight rates. Orders for less than car lots must be boxed at Huntsville. The price of boxes will be additional.

This offer to deliver to distributing points free of freight charges will not apply to less than car-lot orders, if shipment is required at other than the above named dates; but we will ship car-lot orders at any time after September 20th anywhere desired within the territory tributary to the cities designated, and will deduct from the bill the cost of freight to the nearest distributing point.

Nursery stock ripens earlier and consequently is ready for digging sooner at Huntsville than in nurseries further north.

**UNSOLICITED COMMENDATION.**

IOWA, June 24, 1894.—You pack trees splendid and deserve all the trade you get.

IOWA, July 20, 1894.—Your trees do better in my ground than many I get from Northern nurseries.

PENNSYLVANIA, May 19, 1894.—The box of Abundance plums arrived May 10th, in splendid condition; No. 1 trees, and am very sorry I did not get more of them.

INDIANA, April 14, 1894.—The box of plum trees "Marble" came several days ago, but as I was up the river delivering trees I did not get them unpacked until to-day. They are in perfect condition and have the best roots I have ever seen.

IOWA, April 24, 1894.—Never got trees packed better than yours.

**PEACH TREES--On Peach, Leading Varieties,**

Our Peach Trees are budded on seedlings, grown from Tennessee and Alabama pits. They are free from Aphis or Root-Knots, and have fewer borers than those from most nurseries.

	CIPHER.	Per 10	Per 100	Per 1000

" " " " No. 1.....	<i>Zenith</i>	70	6 00	50 00

Grown from cuttings at our branch nurseries, Biloxi, Miss. We will accept orders at 50 per cent. off above prices, for plants to be shipped after the first of December or for Spring delivery. Price of boxes or bales to be added. Delivered at depot at Biloxi. Orders sent in by Northern customers before the 1st of December for Spring delivery, we will pay freight to St. Louis, and hold in cold storage there until wanted. These plants will have three or more branches and will be cut back to 24 to 30 inches. The roots are very fine.

FIGS.

	CIPHER.	Per 10	Per 100	Per 1000
One year from cuttings, 2 to 3 feet.....	<i>Worsted</i>	\$1 00	\$ 8 00	\$ 75 00
" " 1 to 2 feet.....	<i>Wizzard</i>	80	7 00	65 00

Grown at our branch nursery, Biloxi, Miss., where they escape early frosts. They mature in good season and the wood is not liable to be injured by frost in the Fall and Winter. The best variety for orchard planting and canning is the Celestial, which we are growing largely. We can also supply Brown Turkey, Brunswick and Lemon.

APPLE SEEDLINGS.—Prices upon application.

HUNTSVILLE, ALABAMA.

## THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

### Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

**RATES.**—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

**SEASON.**—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

**SHIPPING DIRECTIONS.**—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

**RELEASE.**—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

**PACKAGES.**—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from  $7\frac{1}{2}$  to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 15 inches, \$1.50; bales from 25c. to 75c. each.

**PACKING.**—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

**ASSORTMENTS.**—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

**CAUTION.**—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

**TERMS.**—Cash. When desired, we will allow 30 to 60 days from date of shipment, to responsible.

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, Bank, if possible, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent. per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

**FORMS OF PAYMENT.**—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add  $\frac{1}{4}$  of one cent, to the amount of the bill for the cost of collection.

**GRADES.**—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

**GUARANTEE OF GENUINENESS.**—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

**ACCEPTANCE.**—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us, and without our orders for their disposition.

**HARDY AT HALF PRICE.**  
**SHRUBS** BOTTOM.

We wish to give all our attention to the Fruit Department, and offer our entire stock of Ornamentals at prices some distance below ROCK BOTTOM. Trade List now ready. It will pay you to write us. We have plenty of STRAWBERRIES, &c.

**SANDWICH, ILLS.**  
**ST. JOE., MO.**

**COUNCIL BLUFFS, IA.**  
**LEE'S SUMMIT, MO.**

A combination of circumstances and a phenomenal growth give us the largest supply of  $\frac{3}{4}$  inch and up, 5 to 7 feet, grade of Apple Trees we have ever had, and probably the largest of any one point in the West. Prices within the reach of all.

APPLE SEEDLINGS and FOREIGN FRUIT TREE STOCKS for sale all the while. Correspondence will be answered promptly from any of the above named points.

## The North Star Currant

The Best Grower.  
The Best Fruiter.  
The Best SELLER.  
The Best Red Currant

On Earth.

The "North Star" is a rapid grower, a very prolific bearer of large fruit, of a sweet delicious flavor, and yields a *sure crop* every year. The fruit does not shell or drop off, nor does it sun scald. THE NORTH STAR CURRANT has more strong selling points, backed by genuine merit, than any other specialty on the market today. If you want something new that will secure orders *with good margins*, try the "North Star."

## A STUMP PULLER. GENEVA NURSERIES

In the Genuine Smith Grubber we claim the most perfect machine ever invented for pulling trees, stumps, cleaning timber-land, moving buildings, and for work where a windlass is necessary.

We claim that in proper use the machine will pay for itself in a week; inexperienced hands have averaged one-half acre a day in close timber with this machine; it practically does away with the labor of ten men; trees are pulled out of the ground more rapidly than two men can chop them down; it requires but one minute to pull a tree six and seven inches through!

More than 5,000 of these machines have been sold since the first patent was issued, in 1882. No purchaser has ever entered a complaint. We challenge such! Our machine is a pronounced success.

We have just tried your machine in pulling Black Jack and Old Field Pine. It is more powerful than we supposed, and the effective work done with it is surprising.—W. F. HEIKES.
